### **Changes made :**

- A simple attribute Mgr\_id is added to the strong entity Zoo and weak entity Ticket Counter.
- The attribute ph.no is removed as a primary key in the entity Customer as all the customers visiting the zoo may or maynot have a phone number.
- A primary key 'zoo visited by the customer' is added to the entity Customer.
- The attribute 'evolved in' is removed from the entity Species and a key attribute 'Zoo name', a simple attribute 'E\_id of employee who takes care' are added.
- A partial key 'Species name' is added to the weak entity Animal.
